Career Objective

Motivated and detail-oriented Java Full Stack Developer (Fresher) with hands-on experience in building web applications using Java, Spring Boot, PostgreSQL, HTML, CSS, and JavaScript. Passionate about applying problem-solving skills and full-stack knowledge to deliver scalable solutions in dynamic startup environments.

Technical Skills

- **Technical Languages:** Java, Python, CHTML5, CSS3, JavaScript, React.
- **Frameworks / Libraries:** Java 8, J2SE, J2EE, Servlets, Hibernate, Spring MVC, Spring Boot, RESTful API, Spring Security (Basics), Maven, Apache, React.
- **Databases:** Oracle SQL, PostgreSQL, SQL Workbench
- **Developer Tools:** Git, GitHub, Visual Studio Code, Eclipse IDE, Spring Tool Suite, Spring Initializer, Postman,
- **Operating System:** Windows, Linux.
- **Core Concepts:** OOP, DBMS, SDLC, Debugging, Exception Handling, Git, API Integration.
- **Soft Skills:** Communication, Problem Solving, Teamwork, Leadership, Adaptability, Time Management, Critical Thinking
- **Languages Known:** English, Hindi, Kannada, Marathi, Telugu

Academic projects

Classification of Indian Spices (8th Sem Major Project). [🔗](#)

Technologies Used: Python, Django, scikit-learn, OpenCV, NumPy, Pandas, Matplotlib, HTML/CSS/JavaScript.

- Developed a machine learning system using the SVM model to classify Indian spices based on images.
- Created an intuitive interface for users to upload spice images and receive quick classification results.
- Aimed at improving efficiency for culinary professionals and the food industry in identifying spices.

Student Management System [🔗](#)

Technologies Used: Java, Spring Boot, PostgreSQL, HTML, CSS, JavaScript

- Developed a web application to manage student records, including adding, editing, deleting, and viewing student details.
- Implemented RESTful APIs with Spring Boot and JPA for seamless database interactions using PostgreSQL.
- Designed a user-friendly front-end with HTML, CSS, and JavaScript to improve user experience.
- Optimized performance by integrating efficient query handling and server-side validation.

Bus Ticket Reservation Management System [🔗](#)

Technologies Used: Java, Spring Boot, Spring Security (JWT), Hibernate (JPA), MySQL, React.js, Maven

- Built a **Full-stack bus booking system** where users can search buses, book seats, and manage tickets.
- Added secure login for users and admins using JWT and password encryption.
- Developed a React.js front-end and connected it with a Spring Boot backend for smooth data handling.

Education

Bachelor of Engineering in Computer Science

KLE Institute of Technology.

- CGPA: 7.20

Hubballi, Karnataka

2020 – 2024

Internship

JSpiders Training & Development Center, Bangalore (Java Full Stack Intern) [🔗](#)

Aug 2024 – Jan 2025

Completed Java Full Stack Intern with expertise in Java J2EE, Spring Boot, MySQL, and PostgreSQL. Gained experience in HTML, CSS, JavaScript, and Spring MVC for frontend and backend development. Applied database operations, enhanced API performance, and followed best practices in software development.

Courses and Certifications

- **JSpiders Training & Development Center:** Java Full Stack (Core Java, J2EE, SQL, Web Technology, Frameworks). [🔗](#)
- **Wipro TalentNext course on Java Full Stack:** Wipro talent Next program is a training offered by Wipro on “Java Full Stack Development”. [🔗](#)
- **AWS Academy Cloud Foundations (AWS Academy):** Gained proficiency on cloud architecture and various AWS services. [🔗](#)
